

### **For Immediate Release**

# Las Vegas Sands Recognized in the Dow Jones Sustainability Index North America

*Sands is the only Integrated Resort named to the DJSI North America in 2019*

LAS VEGAS, September 16, 2019 - Las Vegas Sands Corp. (NYSE: LVS) once again has been recognized by the S&P Dow Jones Indices (S&P DJI) for its industry-leading performance in environmental, social and governance (ESG) efforts. Sands is the only Integrated Resort company included in the DJSI North America.

In 2019, Sands made significant performance improvements in human rights, corporate citizenship and philanthropy, and operational eco-efficiency, according to SAM Corporate Sustainability Assessment (CSA) results. The SAM CSA results, derived from financially material ESG factors, alongside S&P DJI's robust index methodology, form the basis of construction and maintenance of the entire DJSI series.

"Sands is driven by delivering strong returns to all of the stakeholders we serve, and inclusion in the DJSI affirms the emphasis we place on positive business impact and good corporate citizenship," said Robert Goldstein, president and chief operating officer of Las Vegas Sands.

"Our leadership among Integrated Resort companies and inclusion with this outstanding group of peers is an accomplishment that is highly valued in our company and continues to drive our continued focus on environmental, social and governance issues."

Sands executes its People, Planet and Communities corporate social responsibility platform through a variety of initiatives that include programs such as the Sands ECO360 global sustainability program; the Sands Cares corporate giving and community engagement program; Project Protect, a program focused on responsible gaming, financial crimes and counter

trafficking practices; and Sands Academy, a global Team Member development program. In addition, the company has a strong track record in sustainable business performance through the economic value and social impact it has delivered as part of its commitment to making the regions it serves better places to live and work.

Celebrating its 20<sup>th</sup> year as the gold standard for measuring and advancing global ESG efforts, the DJSI is one of the most highly recognized indices for corporate sustainability. The DJSI was the first global index to track the largest and leading sustainability-driven publicly listed companies.

Earlier this year, *Fortune* named Sands one of the “World’s Most Admired Companies” in its annual roundup of the world’s most respected and reputable businesses for a third year in a row.
