Marina Bay Sands Responsible Business Forum: Asia’s First Zero Waste to Landfill Event

The 5th Responsible Business Forum (RBF) on Sustainable Development was held at Marina Bay Sands in November. In its largest edition to date, this year’s forum brought together over 750 business leaders, government representatives and non-governmental organizations to share solutions and tackle the United Nation’s Sustainable Development Goals. MBS has worked closely with the organizer, Global Initiatives, to enable RBF to continually achieve its green event goals over the past three years. This year, the forum had the ambition of becoming Asia’s first-ever zero waste to landfill event. MBS’ MICE and Sustainability teams spared no effort to minimize all waste produced, with initiatives such as: replacing paper napkins with cloth ones; using water dispensers with reusable cups instead of single-use plastic water bottles; redesigning of the event’s audio visual layout to eliminate the use of non-recyclable floor tapes; and redesigning the existing Harvest Menu to include only local vegetarian options that were made with ingredients that could be 100% processed by the food digester. Tony Gourlay, Chief Executive of Global Initiatives, praised the extensive sustainability efforts in place at MBS: “Our ambitious waste reduction targets would have been impossible to even consider without the industry leading sustainability commitments of our venue partner Marina Bay Sands.”

Empowering the Leaders of Tomorrow: Venetian Macao Opens Doors to Students

How do enormous integrated resorts operate in an environmentally-friendly manner? Moon Chun Memorial College students found out as they were given a behind-the-scenes sustainability tour by Syed Mubarak, Director of Sustainability and MEP at Sands China Ltd. Throughout the tour, the students were introduced to the numerous sustainability concepts and practices that are implemented across our resorts. It’s clear to say the students came away impressed, as one remarked, “It really shocked me when I saw how the great service provided by The Venetian Macao is managed, operated and supported by thousands of people who come from different majors and backgrounds, all engaged in the sustainability effort!”

Strategy for Success: 2016 Sands ECO360 Sustainability Summit

Sustainability Team Members from each of Las Vegas Sands’ properties recently attended the 2016 Sands ECO360 Global Sustainability Summit. The workshop, which began with remarks from Katarina Tesarova, Vice President of Global Sustainability at Las Vegas Sands, served as an opportunity to set the strategic direction of the Sands ECO360 program for the next five years, as well as learn best practices from, and foster collaboration among, the company’s various properties and departments. Notable highlights from the summit included vision and action planning, a presentation on science-based targets, a tour of LVS’ newest and most sustainable property to date - The Parisian – as well as an interactive panel discussion featuring Mark McWhinnie, SVP of Resort Operations and Development at Sands China Ltd., and Norbert Riezler, SVP & Chief Procurement and Sustainability Officer at Las Vegas Sands Corp.

Greening the Grounds in Las Vegas: Horticulture Department Captures Prestigious Award

Ever find yourself gazing in awe at the magnificent floral displays and landscapes around our properties in Las Vegas? You’re not alone! In recognition of their jaw-dropping work, the Exterior Horticulture department at The Venetian and The Palazzo recently received a Green Star Award in the Hotel, Motel and Resort category from the Professional Grounds Management Society. Not only do the horticulture teams have the difficult task of beautifying and maintaining the grounds, they also strive to incorporate sustainability in their daily work in order to help minimize the impact on the environment. The nationally-recognized Green Star Awards are annually awarded to properties that display outstanding landscape design, construction and maintenance, in addition to incorporating sustainable practices into daily operations.

Company-wide Clean the World Hygiene Kit Builds Top 100,000

Following up from last quarter’s events in Singapore and Bethlehem, Las Vegas and Macao also hosted hygiene kit builds in partnership with Clean the World, the largest global recycler of hotel amenities. In Las Vegas, more than 500 Team Members and volunteers came together to build 35,000 hygiene kits, which will benefit a number of non-profit organizations in the surrounding area serving homeless populations as well as military families. In Macao, eight local community associations joined forces with our Team Members to assemble an additional 35,000 kits that will be donated to Children International Philippines, an organization that helps kids living in poverty. In completing our worldwide volunteer effort, we have now assembled 100,000 hygiene kits in 2016 and nearly 500,000 kits in the past three years.

Sands Bethlehem Tagg-teams with Local Organization to Repurpose Materials

Sands Bethlehem and Taggart Associates have teamed up to increase their outreach efforts within the greater Lehigh Valley area. The partnership grew out of a desire to find good homes for carpet remnants when Sands Bethlehem renovated its hotel property. The project resulted in dozens of leftover rug segments, in various shapes and sizes, which Taggart Associates helped donate to multiple local organizations. In addition to carpets, the donation program has grown to include sheets, towels and partial rolls of toilet paper that no longer meet the standards required by the resort.
The ArtScience Museum at MBS hosted the inaugural Singapore Eco Film Festival, an inspirational event that brought together eco-organizations, storytellers and artists in Singapore in an effort to create a more sustainable future. The three-day festival showcased 21 different environmental films, covering themes such as: consumption, sustainable finance, wildlife conservation, food security and ocean plastic. Each film was followed by a panel discussion of experts in the environmental field to share their insights and address questions from the audience. Kevin Teng, Executive Director of Sustainability at MBS, was featured on a panel discussion in regards to the work MBS has done in relation to sustainable food and purchasing.

Las Vegas Sands Corp. Earns CDP ‘Climate A List’ Accolades
Las Vegas Sands has been recognized as a global leader for the third time for its actions and strategies in response to climate change, earning a spot on CDP’s 2016 Climate A List. CDP, an international not-for-profit that runs the only global carbon disclosure system for companies, annually publishes a Climate A List that features the companies that are leading the way in their actions to mitigate global warming. Only 9% of the corporations participating in CDP’s climate change program in 2016 received this designation.
Team Member Event

Enjoy the Taste, Reduce the Waste: SCL Raises Awareness of Discarded Food

Building upon earlier events throughout the year, Team Members across all Sands China Ltd. properties were encouraged to take action to reduce food waste during a three day ‘Clean Plate Challenge’ event. During the Challenge, Team Members were encouraged to only take as much food as would be eaten, and to consume everything that was on their plate. During the event, average food waste across all SCL properties was reduced by 50% in comparison to baseline quantities prior to the event. Continuing Team Member participation and engagement will further reduce the amount of food waste that is generated. A big thanks goes out to the Food & Beverage, Stewarding, and Human Resources teams for hosting such a successful event.

Supplier Excellence

Keeping It Clean: Combs Brothers receives Sands Supplier Excellence Award

Combs Brothers, LLC received the Supplier Excellence Award for Corporate Culture and Sustainability at this year’s annual Sands Supplier Excellence Awards dinner in Las Vegas. Combs Brothers has proved to be an outstanding waste management company and has helped our Sands ECO360 program tremendously in creating meaningful environmental change. All of our resort’s trash is delivered to a sorting area, where Combs’ employees separate recyclable items from waste destined for the landfill. With help from Combs Brothers, The Venetian and The Palazzo have achieved the highest waste recycling rate among resort properties on the Strip. The company also helps us recover resort assets, such as silverware and dishes that have ended up in waste bins. Last but not least, they also operate the only permitted food scrap feeding pig farm in the State of Nevada, processing food waste into feed for their hogs. In honor of the award, Combs Brothers shared pizza and the Supplier Excellence award with the hard working men and women at the recycling dock.
2016: Another Remarkable, Sustainable Year

Las Vegas Sands Reaches Five-Year Sustainability Milestone
Las Vegas Sands marked the completion of a five-year journey started in 2011. The Sands ECO360 program has served as our company’s roadmap for continuous improvement of environmental stewardship at our global properties. As detailed in the 2015 Sands ECO360 Report, we have met and exceeded our targets in carbon footprint, waste diversion and electricity consumption.

Environmental Rankings Commend LVS’ Sustainability Performance
Las Vegas Sands retained our industry-leading position on CDP’s Climate A List. In receiving a full 100% score in the environmental reporting category, the Dow Jones Sustainability Indices (DJSI) has also recognized LVS as a leader in North America for the second year in a row. Finally, LVS (#39 U.S.; #74 globally) and Sands China Ltd. (#62 globally) have also been ranked as the highest-rated hospitality companies in the world in the 2016 Newsweek Green Rankings.

‘I Will If You Will Challenge’ Yields Record Breaking Actions
Following the slogan of “I Will If You Will”, LVS hosted its fourth annual global environmental challenge encouraging all Team Members to take action to reduce their impact on the climate. In total, more than 26,000 sustainable actions in support of Earth Hour 2016 were undertaken by Team Members.

Sands Macao Achieves Green Hotel Gold Award
This year marked an exciting feat for Sands Macao, which improved its Macao Green Hotel Award from silver to gold. Sands Macao now joins The Venetian Macao and Sands Cotai Central as Gold Award winners. The Macao Green Hotel Awards aim to recognize and commend those hotels that have adopted environmental measures and worked to lower the environmental impact of their operations.

Clean the World Hygiene Kit Builds Surpass 500,000
This marks the third consecutive year that Las Vegas Sands has built hygiene kits for Clean the World, bringing the total number of hygiene kits created to nearly 500,000. Partners since 2011, Las Vegas Sands and Clean the World have recycled over 358,000 pounds of discarded soap and amenities into clean bars of soap for distribution with other amenities to underprivileged communities and relief organizations.

LEED Gold Recertification for Las Vegas Buildings
The U.S. Green Building Council (USGBC) has awarded the Leadership in Energy & Environmental Design (LEED) Gold® Recertification for Building Operations and Maintenance to Sands Expo and The Venetian | The Palazzo Congress Center. In January 2010, the buildings achieved initial LEED Gold® Certification for Existing Buildings, which is only valid for five years.

Marina Bay Sands named Grand Winner by Pacific Asia Travel Assoc.
Marina Bay Sands was named as the only Grand Award Winner by the Pacific Asia Travel Association (PATA) in the Environment category. In selecting MBS as the Grand Award Winner, PATA praised the resort’s green meetings program, which provides like-minded clients with responsible meeting practices as part of our standard services at no additional cost.
