

LR Independent Assurance Statement

Relating to Las Vegas Sands Corp.'s Environmental Assertion for the Calendar Year 2020

Terms of Engagement

This Assurance Statement has been prepared for Las Vegas Sands Corp.

Lloyd's Register Quality Assurance, Inc. (LR) was commissioned by Las Vegas Sands Corp. (LVS) to assure the Environmental Assertion, for the calendar year 2020, (hereafter referred to as "the Assertion").

The Assertion relates to direct greenhouse gas (GHG) emissions (Scope 1), energy indirect GHG emissions (Scope 2), other indirect GHG emissions (Scope 3) from waste generation, energy consumption, waste generation and water use.

Management Responsibility

The management of LVS was responsible for preparing the Assertion and for maintaining effective internal controls over the data and information disclosed. LR's responsibility was to carry out an assurance engagement on the Assertion in accordance with our contract with LVS.

Ultimately, the Assertion has been approved by, and remains the responsibility of LVS.

LR's Approach

Our verification has been conducted in accordance with ISO 14064-3:2006, '*Specification with guidance for validation and verification of greenhouse gas assertions*' for the GHG data and LR's verification procedure for the other environmental data, to provide limited assurance that GHG and environmental data as presented in the Assertion have been prepared in conformance with the World Resources Institute/World Business Council for Sustainable Development (WRI/WBCSD) GHG Protocol: *A Corporate Accounting and Reporting Standard*, and LVS internal environmental data reporting procedures.

To form our conclusions the assurance engagement was undertaken as a sampling exercise and covered the following activities:

- reviewed processes related to the control of GHG emissions, energy consumption, waste generation and water data and records;
- interviewed relevant staff of the organization responsible for managing GHG emissions, energy consumption, waste generation and water use data and records; and
- verified historical GHG emissions, energy consumption, waste generation and water use data and records at an aggregated level for the calendar year 2020.

In performing our verification services, we have complied with the independence and impartiality requirements of the ISO 16064-3 standard. The services included under this verification project are the only services provided by LR to LVS, as such they do not compromise our independence or impartiality.

Level of Assurance & Materiality

The opinion expressed in this Assurance Statement has been formed based on a limited level of assurance and at a materiality of the professional judgment of the Verifier.

LR's Opinion

Based on LR's approach nothing has come to our attention that would cause us to believe that the total Scope 1 GHG emissions, Scope 2 GHG emissions, Scope 3 GHG emissions, energy consumption, waste generation and water use disclosed in the Assertion, as summarized in Table 1 below, are not materially correct and that the Assertion has not been prepared in conformance with WRI/WBCSD GHG Protocol, and LVS internal environmental data reporting procedures.

Signed

Dated: 25 March 2021

Table 1. Summary of Las Vegas Sands Corp., Environmental Assertion 2020

GHG Emissions	Tonnes CO ₂ e
Scope 1 GHG emissions	69,255
Scope 2 GHG emissions (location-based) ¹	586,305
Scope 2 GHG emissions (market-based) ¹	472,501
Scope 3 GHG emissions from waste generation	50,729
Energy Consumption	MWh
Total energy	1,180,391
Renewable energy	528.5
Renewable Energy Certificates	MWh
Total RECs ²	209,527
RECs ²	158,027
TIGRs ²	21,000
I-RECs ²	30,500
Waste	Tonnes
Total waste disposed (landfill, incineration, recycled)	105,506
Waste sent for landfill or incineration	90,059
Waste recycled	15,447
Water	Million US Gallons
Total water use	1,837.20
Municipal water	1,791.17
Rainwater	0.33
Treated groundwater (Nanofiltration)	26.87
Reclaimed water	10.68
Condensate	8.15
Note 1: Scope 2, Location-based and Scope 2, Market-based are defined in the GHG Protocol Scope 2 Guidance, 2015	
Note 2: RECs – Renewable Energy Certificates, TIGR's - Tradeable Instruments for Global Renewables, I-RECs – International Renewable Energy Certificates.	

This Assurance Statement is only valid when published with a summary of the GHG Emissions Inventory, or the entire GHG Performance Assertion to which it refers. It may only be reproduced in its entirety.

Lloyd's Register Group Limited, its affiliates and subsidiaries, including LRQA, Inc., and their respective officers, employees or agents are, individually and collectively, referred to in this Legal Section as 'Lloyd's Register'. Lloyd's Register assumes no responsibility and shall not be liable to any person for any loss, damage or expense caused by reliance on the information or advice in this document or howsoever provided, unless that person has signed a contract with the relevant Lloyd's Register entity for the provision of this information or advice and in that case any responsibility or liability is exclusively on the terms and conditions set out in that contract.
